THE DEMOCRATS DOWNED AGAIN.

It has taken young men who desired to be Democrats in politics, to hold to the Democratic faith and in action deport themselves as Democrats, a long time to learn that in order to follow the bent of their inclinations and wishes in this respect, they could have no affiliation with the moss-backs of the party who though claiming to be Democrats have been working with the opposition so long that they have forgotten all they ever knew about Democracy. The other evening there was a gathering of alleged and self-styled Democrats in the Federal Court room. The object was to harmonize the factions, and unite them for the coming election. That is to say, that was the object of the young and progressive Democrats, while the purpose of the ancient and ugly contingents, was to check the sprouting of Democracy, and deliver all Democrats, bound and gagged, over to the control of those political nondescripts who delight in calling themselves Liberals. It may be remarked here that the moss-backs were eminently successful so far as the delivery of themselves is concerned; it remains to be seen whether or not they will also be able to hand over the real Democrats to be used as hired men for turning the Liberal crank.

Several attempts have been made to bring the Utah Democrats together into an organization which would work harmoniously for the dissemination of Democratic doctrines, and for the acquisition of political power; but on every occasion the grumblers and malcontents have been in the majority, and they have prevented a union. Today there exists absolutely nothing which can be called a Democratic party organization. The Democrats are the tools and slaves of Republicans and Liberals, training under a banner which is offensive to the true Democrats, and held in line by a newspaper which is openly, boastfully and bitterly Republican as any organ of that party in the United States.

A couple of years ago or such a matter, when some active and brainy young men undertook to form what they hoped would be the nucleus of a live and prosperous Democratic party, THE HERALD cautioned them to steer clear of the clanks and fossils, and to avoid Liberalism in all its forms. We warned them that if they permitted the men who had been a disturbing element in the party to enter their councils and dictate to them, they would not only not thrive, but would be handed over bodily to the enemy, which would crush them out of existence. Almost from the first the evil influence of the Liberal-Democrats has been apparent, and on Tuesday it was triumphant, having literally squelched the men who had tried to be Democrats because they loved Democracy. Practically Democrats were voted out of existence, and those who had thought they were Democrats were voted into the ranks of the Liberals, where they will be made to swallow doses most bitter and nauseating. From this time forward they must pose as Liberals or be denounced as blackguards and scurfs, unworthy the respect of decent people. Some will endure the denunciation, but many will swallow their medicine to avoid incurring the lashings which independence and honesty on their part would bring upon their backs.

After all this painful and disheartening experience, Democrats should understand that there is but one thing for them to do, and that is to be Democrats pure and simple. They cannot "monkey" with the business and succeed. They cannot trade and traffic. They cannot win by giving and taking. They cannot be Democrats in resolutions to-day, and Liberals in actions and speeches to-morrow. They cannot put in their platform a plank to please the Liberals and another to mollify the Republicans. They cannot be anti-Mormon in order to feed the anti-Mormon hate of Liberals.

We have long been confident there was material here for an active, vigorous and influential Democratic party. There are scores of able, energetic young men who are in sympathy with Democratic principles, but they abominate "Liberals" and "Liberalism," and will never ally themselves with a political organization which teaches the monstrous doctrines of the Liberal party, or is under the control of the men who manage that party.

The other day we had a paragraph stating that the Illinois Supreme Court had rendered a decision holding directors of a bank liable to the depositors for the money of the latter. The suit was brought by a depositor against the directors of a defunct bank on the ground that they had not exercised due diligence in examining its condition, the allegation being that by their failure to do their duty, people were encouraged to deposit money in the bank long after an investigation would have shown it to be unsafe. The court held for the plaintiff, awarding judgment in his favor. It is to be hoped that this decision will be accepted as good law, and be made a precedent, in which event there may be just as many bank failures, but there will not be so many losses by innocent depositors. The good will come less from making directors responsible for the defalcations of cashiers and employees than from the holding of the directors to an accountability. In pretty nearly every bank failure caused by the embezzlement of employees, the directors are criminally negligent. Directors are too apt to rely entirely upon the representations of subordinates, who may at the very time be planning to conceal some misappropriation of the funds. They forget that every bank by receiving deposits becomes something more than a mere private corporation, and that every stockholder who shares profits derivable from this source thereby assumes an implied responsibility for the honest conduct of affairs.

Of course bank directors should not be expected to do the work of expert accountants, but they should be made to exercise proper diligence in the matter of supervision and watchfulness. They should be made to know that the funds are not being spirited away, or used irregularly and unlawfully by officials and employees.

THE LIBERALS have adopted a resolution that they will not vote on the State Constitution. In this they have displayed a good deal of cunning, but not much wisdom, and no courage whatever. They did not dare assume the attitude of opposition to a Constitution so broad and liberal, and which provides for doing all the Liberals have asked the people of Utah to do; and they lacked the wisdom to see that their failure to vote will increase the majority for the Constitution and make it more likely to be accepted by Congress as having received the almost unanimous endorsement of the voters of Utah. The friends of Statehood will be pleased with the action of the Liberals in this matter, as it will insure an overwhelming majority for the Constitution.

It is said the Chicago Anarchists, those of them who are not detained to fill engagements with the public executioner, are perfecting a plan for transferring themselves to the island of San Domingo, on which they propose to set up a republic after their own hearts. The idea is a good one, and we all hope it will be carried out to the letter. Besides getting rid of a most undesirable class of people, it will at once settle the long-pending question of the annexation of San Domingo. The United States will never think of annexing the island while it is inhabited by Anarchists.

THE PROHIBITIONISTS of Texas claim that they will carry the State in the coming election by 65,000 majority. If they do this, it will do away with a long-standing scandal associating whisky and Democrats almost too intimately. Texas gave Cleveland a majority of 13,000.

pany raised the rate on him from 50 cents to \$2.50. He had also been to Butte to see what he could do about salt, but was informed that no one but the Northwestern Forwarding Company could do any salt business in that section; that they could not take his salt if he were to give it to them. It was his opinion that the Union Pacific controlled a great number of important interests along its line and used a great many figure heads to do it with.

W. W. RITER.

Superintendent of the Salt Lake & Western and Utah & Nevada stepped into the witness chair. Salt Lake & Western had been constructed by a local company. The Union Pacific furnished the money to build the road. He furnished the Union Pacific with the vouchers for all cash expended. Mr. Riter was excused, with the understanding that the committee would meet at the office of the Utah & Nevada this morning at 10 o'clock, to examine copies of such vouchers furnished the Union Pacific.

J. C. CONKLIN.

was called next. He was engaged in mining in the Wood River mining country. He had never received any special rates, except for a short time. We applied for a rate of \$14, when the published rate was \$18. This was done in order that a contract might be filled, which would have been impossible under the \$18 rate. It was and had been for a long time impossible to ship ores into Salt Lake, because of the great discrimination against this city in the matter of railroad rates. Ore could be sent much cheaper to either Denver or San Francisco than to Salt Lake.

Just before the opening of the afternoon session,

CHARLES FRANCIS ADAMS.

president of the Union Pacific, appeared, to refute, as he said, much idle and silly gossip that had sprung into existence concerning him. He wanted to say, and he wanted it to go upon the record, that he had no relatives in the employ of the Union Pacific; that he never saw or heard of any of the men to whom he had given employment since he had held his present position.

OFF TO GARFIELD BEACH.

The committee and the members of the party accompanying left for Garfield Beach on the 4:45 train, where they spent a couple of hours very pleasantly and returned refreshed and invigorated from a dip in the brine.

The committee meets again this morning at 9, at the Walker House.

PERSONAL.

Mrs. J. H. Brown, of the People's Hotel, Logan, is visiting her sister, Mrs. John Reading.

W. E. SMEDLEY and wife and Mrs. Thomas Marshall and daughter left for Brighton's yesterday.

DAN H. CALDER, who has been in New York and Boston for two years past, studying piano tuning, has returned home, having graduated with high honors, and after a few days' rest, he will be ready for business. He returns in excellent health, and from the expansive chest shown, one gathers the idea that brown bread and beans, as an article of diet, is all that it is cracked up to be.

LAKE PARK

BATHING RESORT

—ON THE—

DENVER & RIO GRANDE WESTERN RAILWAY,

—IS NOW—

Open for the Season of 1887.

In making this announcement, the Lake Park Resort Company respectfully assures the public that its preparatory efforts of last year to give it the first conveniences for bathing in Great Salt Lake worthy of patronage ever offered, have for this season been GREATLY ENLARGED AND IMPROVED upon, and that the general attractions of the Resort will continue to be added to in the most careful manner in ascertaining the requirements of a discriminating public may suggest.

The exceedingly liberal patronage bestowed upon the Resort in the unfinished state of its appointments last season clearly indicated the popular demand for and appreciation of better accommodations than had ever before been given for Lake Bathing, and this season finished appointments and delightful accessories will be so profusely offered as will maintain for this resort the leading position at once accorded it by the public from its original opening.

The MUSIC for this season will be of the highest degree of excellence and under the directorship of Professors Krouse, of this city, and Koenigshof, of Denver. The full band of musicians has been selected with the closest discrimination. Daily Concerts in the Grand Pavilion. The patronage of the public is respectfully invited.
